

9 Patch Charm Quilt

81 5" squares will construct a quilt top 39 x 39". Borders may be added if desired. Border fabric is not included in this kit. Packets of themed charm squares are helpful in making this quilt although scrap blocks cut from your scrap collection will work equally as well. I try to include 2 squares of each color but that certainly is not a rule. Feel free to make fabric substitutions to this kit.

Construct 9 blocks as illustrated above using 5" squares. (14" square)
Press all blocks alike.

Cut each block in half vertically and horizontally.

Each block will yield 4 7" squares - all different.

Make all your 7" square blocks before proceeding to assemble your rows.

Blocks may be turned in any direction when assembling the rows. There is no right or wrong. Press odd numbered rows in one direction - the even numbered rows in the opposite direction. Join the rows, - seams should 'snuggle'. Press.

Add borders if desired.

6 x 6 39" x 39"
