

BETH HELFTER . . .

Lecture November 20th (Guild Meeting)

Azan Shriners

“Oompah! Accordion Sewn HSTs”

What happens when you have a designer who wants to be as scrappy as possible, but hates wasting fabric? Well, all sorts of things – that's the definition of scrappy. But I took it one step further, and figured out a way to create HSTs that don't have a twin, yet waste no fabric, by sewing them in 'accordions'. Add another step or two, and the quilt comes together almost like magic!

Half day Class November 20th

“Intro to Accordion Sewn HSTs”

Azan Shriners

**Intro to Accordion Sewn
HSTs™ - 3 hours**

I created Accordion Sewn HSTs™ to maximize the number of fabrics in scrappy HST based quilts, but they can do so much more than just make a variety of HSTs. Learn the ins and outs of the process, the block making capabilities, and adding wow to your scrap borders, and be inspired to take the process to all new levels!

Beth is a fun, sassy, smart quilter who is as entertaining as she is informative. In this class you will be able to practice the technique she shares in the morning. Do not miss out!! Optional kit will be available for \$10.00 to be purchased from Beth. Be sure to arrange for lunch!

Class Fee: \$35 for SSPM Members

\$45 for SSPM non-Members
